

`{{bu}}` is a shorthand notation to make the required first parameter text emphasized with both **big** and underlined. It is most useful when defining an acronym.

An optional second parameter text can be included for non-emphasized text, which can make text entry simpler.

Bu/doc stands for **Big Underlined**.

Usage

```
{{ bu | letter(s) to emphasize }} optional letter(s) to not emphasize
```

```
{{ bu | letter(s) to emphasize | optional letter(s) to not emphasize }}
```

Note that case is preserved and not automatically converted to uppercase.

Examples

Code	Result
Single parameter, single letter	
<code>{{bu D}}edicated {{bu S}}ervice {{bu T}}ools</code>	<u>D</u>edicated <u>S</u>ervice <u>T</u>ools
Single parameter, multiple letters	
<code>{{bu QuI}}ck {{bu BrO}}wn {{bu F}}ox.</code>	<u>QuI</u>ck <u>BrO</u>wn <u>F</u>ox.
Optional second parameter, multiple letters	
<code>{{bu QuI ck}} {{bu BrO wn}} {{bu F ox}}.</code>	<u>QuI</u>ck <u>BrO</u>wn <u>F</u>ox.
