

Usage

This template will allow you to collapse a section of a page. The first parameter is the title of the collapse section, and the second (optional parameter) is the width. To close the section, use **{{divhideend}}**.

Examples

```
{{divhide|Test}}
These are the hidden contents.
{{divhide|end}}
```

Test

These are the hidden contents.

```
{{divhide|Half test|50%}}
These are the hidden contents, and the box only takes up 50% of the page.
{{divhide|end}}
```

Half Test

These are the hidden contents, and the box only takes up 50% of the page.

You may also use the parameter "show=yes" to show the contents by default.

```
{{divhide|Show and test|show=yes}}
This section is shown by default.
{{divhide|end}}
```

Show and test

This section is shown by default.
