

[edit] [purge] Template documentation
This documentation transcluded from Template:Lower/doc([edit](#) | [history](#))

Use to lower some text or other element a specified number of units (recommend proportional 'em' units), otherwise by a default 0.6em:

`{}{{lower|Nem|text/element}}` to lower by N em units

(e.g. `{}{{lower|0.4em|This is the text to lower.}}`)

`{}{{lower|text/element}}` to lower by default 0.6em.
