

Template:Smaller

{{{1}}}

[\[edit\]](#) [\[purge\]](#)  [Template documentation](#)
This documentation transcluded from [Template:Smaller/doc](#)([edit](#) | [history](#))
Template to aid switching the font-size used for a text string.

Syntax

`{{resize|N|text}}` or `{{resize|text}}`

N specifies a size, such as "90%", "1.2em", etc. For the default case (the second above), *N* is set to "90%".

Examples

```
{{resize|1.2em|This text is 0.2em larger than normal}}
```

This text is 0.2em larger than normal

```
{{resize|80%|This text is 80% normal size}}
```

This text is 80% normal size

```
{{resize|This text defaults to 90% normal size}}
```

This text defaults to 90% normal size

Alternate

`{{smaller|Text}}`

= `{{resize|Text}}`

(i.e. *Text* will appear at 90% normal size.)
