

Help:Transclusion

 **Important note:** When you edit this page, you agree to release your contribution into the **public domain**. If you don't want this or can't do this because of license restrictions, please don't edit.  This page is one of the *Public Domain Help Pages*, which can be freely copied into fresh wiki installations and/or distributed with Foresight Wiki software; see [Help:Contents](#) for an overview of all pages.

Transclusion is a general MediaWiki term for including things into a page using double-brace "`{{ }}`" markup. This can be things like [templates](#), pages in other namespaces, [magic words](#), output of [parser functions](#), some special pages, interwiki pages, and more.
