Featured article

Deliberating Foresight Knowledge for Policy and Foresight Knowledge Assessment is a working paper authored by René von Schomberg, Ângela Guimarães Pereira and Silvio Funtowicz, and published by the European Commission, Directorate General for Research in November 2005. This report was included in the mandatory bibliography of the module [Visions and Visioning](#) that was thought to graduate students from the National School for Political and Governance Studies (Romania) as part of the course on the *Management and Implementation of Research Projects*.
